

HoffTech Solutions LLC

Modern Software for Public Service

CAPABILITY STATEMENT

Federal · State · Local

HoffTech Solutions builds **custom software, workflow automation, and AI-powered tools** that help government agencies cut manual work, modernize legacy systems, and serve constituents faster. Founded by an engineer with production experience on programs delivered to NASA, Lockheed Martin, and U.S. Space Force, and operating a veterinary teleradiology platform handling sensitive medical imaging data.

CORE COMPETENCIES

Workflow Automation

Replace manual processes with custom-built systems that reduce errors and save staff hours.

Custom Web Applications

Secure, scalable apps for internal teams or public-facing use, aligned with NIST 800-171 controls.

AI-Powered Tools

Chatbots, document processing, and intelligent automation built on production infrastructure.

System Integration

Connect existing tools and platforms into a unified operational flow.

DIFFERENTIATORS

- ▶ U.S.-based small business — single point of contact, no offshore handoffs
- ▶ Production experience delivering systems with strict security and reliability requirements
- ▶ Modern, cloud-native stack — no legacy contractor bloat
- ▶ Open to both prime and subcontracting opportunities

PAST PERFORMANCE

PickNik Robotics

AEROSPACE · DEFENSE

Contributed to production-grade robotics software delivered to NASA Johnson Space Center, Lockheed Martin, and U.S. Space Force programs. Worked on the Movelt Pro platform for manipulation applications used in space and defense environments.

Crux Imaging

VETERINARY

Co-founded and operate a production veterinary teleradiology platform built on Next.js, Firebase, and a custom DICOM/PACS pipeline. Handles sensitive medical imaging data with role-based access control and a security posture aligned with NIST 800-171 principles.

CORPORATE DATA

ENTITY	HoffTech Solutions LLC
BUSINESS TYPE	Small Business · U.S.-Based
LOCATION	Colorado — Serving Nationally
NAICS CODES	541511 Custom Computer Programming 541512 Computer Systems Design 541519 Other Computer Related Services
UEI / SAM.GOV	Registration in progress
TECH STACK	React · Next.js · TypeScript · Firebase · Google Cloud · PostgreSQL · Python
